

Appendix I: Nonpoint Source Tables

Table I - 1. Regional NPS Problems by Management Measure Category

Pollutant(s) impairing or threatening Beneficial Uses by Management Measure Category		
Watershed/waterbody	Agriculture	Urban
Salton Sea Transboundary Watershed/ Alamo River (52 miles)	Silt Selenium Pesticides	
Salton Sea Transboundary Watershed/ New River (60 miles)	Silt Pesticides Nutrients	Pathogens VOCs
Salton Sea Transboundary Watershed/ Imperial Valley Drains (1,305 miles)	Silt Selenium Pesticides	
Salton Sea Transboundary Watershed/ Salton Sea (220,000 saline lake acres)	Salt Nutrients Selenium	
Salton Sea Transboundary Watershed/ Coachella valley Stormwater Channel (20 miles)	Pathogens	Pathogens
Lower Colorado River Watershed/ Palo Verde Outfall Drain (16 miles)	Pathogens	Pathogens
